

HOW-TO

You're Using Claude Wrong. Here's What It Can Actually Do for Your Content.

Most people treat Claude like a chatbot. Here's how to turn it into a content machine.

4 key insights inside →

01

The Problem

Most people treat Claude like a chatbot. Ask a question. Get an answer. Copy-paste it somewhere.

That's like buying a Ferrari and only driving it in your driveway. You're using maybe 10% of what Claude can actually do.

02

What Claude Actually Does

When you set it up properly, Claude can:

- Turn one idea into a full carousel with hooks, flow, and CTA
- Draft 5 versions of the same post for different platforms
- Write in YOUR voice — not that generic AI tone
- Plan a full week of content in 20 minutes

03

The Setup That Changes Everything

Teach Claude three things:

1. Your brand voice and tone
2. Your audience and what they care about
3. Your quality standards

Do it once. Claude remembers it across every conversation. You never repeat yourself again.

04

The Result

A content machine that sounds like you on your best day. Not a robot. Not generic. Not that unmistakable 'ChatGPT tone.'

YOU — but faster, more consistent, and without the Sunday night content scramble.
